WARNING

KNOW YOUR MSR® WHISPERLITE ™ UNIVERSAL STOVE

1. Fill Fuel Bottle to fill line only.
2. Completely insert brass end of Liquid Fuel Adapter into Pump.
3. Check Fuel Bottle for leaks.

WARNING

NEVER OVERTIGHTEN FUEL CANISTER TO STOVE. OVERTIGHTENING CAN DAMAGE STOVE OR CANISTER AND CAUSE FUEL TO LEAK. LEAKING FUEL CAN CAUSE FIRE, BURNS, SEVERE INJURY OR DEATH. USE EXTREME CAUTION WHEN USING STOVE.

FUEL BOTTLE PREPARATION

1. Fill Fuel Bottle to fill line only.
2. Completely insert brass end of Liquid Fuel Adapter into Pump.
3. Check Fuel Bottle for leaks.

STOVE PREPARATION

1. Place Fuel Canister in the upright position to prevent a large flare-up.
2. Place Freestanding Stove or Canister canister fuel adapter onto cylinder.
3. Open Control Valve (1/2 turn) and wait for steady blue flame.
4. Open Flame Adjuster Valve (3/4 turn) to release and ignite fuel.
5. Slowly open Control Valve.

USE COOKWARE

1. Never overtighten fuel canister to stove. Overtightening can damage stove or canister and cause fuel to leak. Leaking fuel can cause fire, burns, severe injury or death. Use extreme caution when using stove.
2. Never use cookware with a diameter greater than 10 inches (25 centimeters). Never place and operate two or more stoves together. Never operate stove with empty or dry cookware. Never use non-MSR® canister fuels.

IMPORTANT ALWAYS START STOVE WITH FUEL CANISTER IN UPRIGHT POSITION TO PREVENT A LARGE FLARE-UP.

1. WARNING

DO NOT USE GRADED MATERIALS WITH JANET FLAME ADJUSTMENT.

WARNING

NEVER LEFT A BURNING OR HOT STOVE UNATTENDED. AN UNATTENDED STOVE CAN LEAD TO FIRE AND/OR A SITUATION WHERE CHILDREN, PETS, OR THE UNWARY CAN BE BURNED, INJURED, OR KILLED. THE CANISTER MUST BE CONSTRUCTED AND MARKED IN ACCORDANCE WITH THE CAN/CSA 339.

USE FUEL INFORMATION.

2. Some Foam Canisters use Canister Fuel Adapter.

TURN STOVE OFF

1. Place the Fuel Canister at the upward position of a reversed Freestanding Stove.
2. Close Freestanding Stove.
3. Place both Fuel Canister and Freestanding Stove in females.

STOVE RE PairMENT

1. If fuel has leaked or is leaking can cause fire, burning, severe injury or death. Never use fuel that has leaked or is leaking. Use extreme caution when using stove.

1. WARNING

LEAKING FUEL CAN CAUSE FIRE, BURNS, SEVERE INJURY OR DEATH. USE EXTREME CAUTION WHEN USING STOVE.
1. Do not attempt to light stove.

2. Do not disassemble stove or pump beyond what is described in these instructions. Disassembly or modification of stove or pump can result in an unsafe situation where fire, burns, severe injury or death can occur.

3. Do not use stove or pump if parts are missing or broken, or with replacement parts not specific to your stove model. Use of parts not specific to your stove model, can result in an unsafe situation where fire, burns, severe injury or death can occur.

4. Do not store or use gasoline or other liquids with flammable vapors in the vicinity of this or any other stove.

5. If you smell gas,
   a. Do not attempt to light stove.
   b. Extinguish any flame.
   c. Disconnect from fuel canister.

6. Do not store or use gasoline or other liquids with flammable vapors in the vicinity of this or any other stove.

7. Keep stove and fuel bottle or fuel canister away from other heat sources. Never use stove on an Outdoors™ with a diameter larger than 10 inches (25 centimeters). Overheated cookware can overheat the fuel bottle or fuel canister.

8. Never let children use this stove. Keep children at least 10 feet (3+ meters) away from the stove and cooking area and supervise them at all times.

9. Read, understand, and follow all instructions and warnings in this manual before using this stove. Failure to follow warnings and instructions can result in death, serious burns or other injury, and property damage.

DRY JET AND FUEL LINES

For outdoor use only.

CARBON MONOXIDE, FIRE & EXPLOSION HAZARD

There are serious hazards associated with using this stove and fuel. Accidental fire, explosion, and misuse can cause death, serious burns, and property damage. You are responsible for your own safety and the safety of those in your group. Please use good judgment.

This stove is FOR OUTDOOR USE ONLY. Never use this stove in a tent, trailer, car, house, or inside any enclosed area. This stove consumes oxygen and produces carbon monoxide, which is poisonous and has no color. This stove can cause slowly combusting materials and flammable liquids or vapors. If you use this stove in an enclosed area you can be killed or seriously burned.

Keep stove and fuel bottle or fuel canister away from other heat sources. Never use stove on an Outdoors™ with a diameter larger than 10 inches (25 centimeters). Overheated cookware can overheat the fuel bottle or fuel canister. If you expose the fuel bottle or fuel canister to high heat, it will explode and you can be killed or seriously burned.

Never let children use this stove. Keep children at least 10 feet (3+ meters) away from the stove and cooking area and supervise them at all times.

READ, UNDERSTAND, AND FOLLOW ALL INSTRUCTIONS AND WARNINGS IN THIS MANUAL BEFORE USING THIS STOVE. FAILURE TO FOLLOW WARNINGS AND INSTRUCTIONS CAN RESULT IN DEATH, SERIOUS BURNS OR OTHER INJURY, AND PROPERTY DAMAGE.
